

Continuing to ASPIRE

Saint George Catholic College Alumni

SUBJECTS STUDIED AT SAINT GEORGE:

Mathematics
English Lit and Lang , Biology,
Chemistry, Physics, Geography,
French and RE

FURTHER/ HIGHER EDUCATION:

Barton Peveril:
Chemistry
Biology
Computer Science

University of Southampton studying
Bio-Chemistry

NABEEL ESAT'S TIME AT ST GEORGE:

At St George,
my favourite subjects were
Science and PE. I've always and still do
enjoy sports and there were plenty of opportunities
to get involved with a sports team if you were interested in it.
The school offered triple science after school so I definitely felt
at an advantage when I started college as I felt I had a headstart
into the A Level course having studied some of the content at St George. The
teachers were great and so dedicated. They taught us the entire GCSE course in
sessions after school.

I will remember helping with "It's a Knockout" for the prospective Year 7 students.
It was great to show our organisation and team work as well as leaderships skills
that day. These are skills I still use today. Being a prefect, allows me to practice my
time management and organisation skills. This set me up for further education as I
currently have to balance my studies with my sports as well as social life!
