

# Continuing to ASPIRE

## Saint George Catholic College Alumni

### SUBJECTS STUDIED AT SAINT GEORGE:

Mathematics  
English Lit and Lang , Biology,  
Chemistry, Physics, Geography,  
Business Studies, PE, RE and Polish

### FURTHER/ HIGHER EDUCATION:

Barton Peveril:  
Chemistry  
Biology  
Mathematics  
Further Mathematics

Imperial College London – Medicine

### EMILIA PARZYSZEK'S TIME AT ST GEORGE:

St George gave me to the opportunity to be part of multiple sports teams to pursue my extra-curricular passions, while developing life skills such as teamwork and communication. I was able to balance this with becoming the Respect captain to collaborate with members implement change and this felt very rewarding.

One of my favourite subjects was Maths as I really enjoyed problem solving in groups. All of our maths lessons were led by enthusiastic, supportive teachers and were very enjoyable. The ASPIRE values have majorly helped me in life as they remind me of key values such as respect and independence while emphasising the importance of work-life balance through the value of enjoyment.

I feel privileged to have studied at St George – simple for the number of opportunities we had offered to us. In year 11 I was offered the opportunity to study an extra qualification, FSMQ (free standing maths qualification), which had an extremely positive impact on my transition from GCSE to A-level education.

If I could do my time at STGCC again, I would have tried more things that I was interested in such as Drama; secondary school is the best time and place to explore potential hobbies.

CLASS OF 2020
