

"The college's engagement with parents and carers is excellent... An overwhelming majority praise their children's experience at the college" (Ofsted 2011)

Welcome to Our School

Welcome to St George Catholic College; a school with a heritage of over half a century of Catholic learning in Southampton.

We believe that academic achievement should go hand-in-hand with the nurturing of a moral and social awareness. Our six core values are at the heart of everything we do, creating a supportive and personalised environment in which our students can *aspire* to reach their full potential.

"I really like St George because it isn't just a school, it is a big family"
(Year 7 Student)

"Students achieve well during their time at the college...and they make good progress in their learning" (Ofsted 2011)

"There is a high level of mutual respect between students and staff. Students feel extremely safe and look after each other" (Ofsted 2011)

"The College is an extremely cohesive community" (Ofsted 2011)

Achievement & Spirituality

Whatever their interests and abilities we are dedicated to helping our students to achieve. We organise concerts, assemblies and awards ceremonies throughout the year to showcase talent and celebrate success.

Our Catholic ethos and spirituality help to create a very special learning environment. We encourage our students to see beyond themselves as individuals. They regularly co-ordinate their own fund-raising events for charity and contribute to the school, local and global communities.

Being a Catholic community we celebrate the major events in the Catholic calendar, either in whole school masses, or for small groups in our chapel which is available for prayer and reflection.

Respect & Independence

Respect for each other is central to learning at St George. We recognise our similarities and common humanity whilst valuing each others' differences and talents. As a result, students from a multitude of backgrounds and beliefs enjoy a harmonious learning environment.

Students are encouraged to work more independently and take on responsibilities during their time at St George, giving them vital skills for when they go on to higher education or employment.

Relationships & Enjoyment

Positive relationships and a sense of community combined with our relatively small numbers, create a unique family feel to our school. As we know each of our students as individuals, we are able to support them fully according to their needs.

It is important to us that our students enjoy their learning experience throughout their time at St George. In the classroom our teachers work hard to ensure that lessons are both inspirational and challenging. Our holistic approach to education means that students are engaged in a wide variety of extra curricular activities that enhance their overall experience at school.

"A+ to St George! It's shaping up to be the best decision we ever made for our daughter. Thank you so much for being so welcoming and for actually caring about her as an individual"

(Year 7 Parent)

Welcoming New Students

St George has an excellent reputation for its transition arrangements and every effort is made to welcome all new students. We have close links with our feeder primary schools, and hold a number of events at St George for students in Years 5 and 6.

We are also very proud of the pastoral care we provide for our students. It is important to us that we establish strong relationships with our students and their families from the beginning, as together we are responsible for ensuring that every student reaches their potential throughout their time with us.

The combination of our thoughtful induction process and nurturing pastoral system means
